AGENDA

Mark Barber Moved the agenda be adopted as presented

Carried. 12.13.23-2241

MINUTES

Doreen Glavin

Moved the minutes of Nov 22, 2023, be adopted as circulated.

Carried. 12.13.23-2242

MANAGER'S REPORT

- MSW is doing good, regional side will come up short as numbers have been declining for a few years.
- The Industrial cell is slow, but this is usual for this time of the year.
- I have been in contact with the company that does the cleaning on contaminated soil. The technology has come along way since we last met with them. They are working on numbers associated with this and will get back to me.
- Our Metal recycling had more then usual, and the price is higher this year, should know in a few weeks how well it turns out.
- We have started grinding our wood pile, it's the biggest it's ever been and will take us well into the new year to complete.
- We had an incident occur onsite with one of our contractors roll off trucks, when he was trying to dump the load shifted and tipped on its side. No one was inured and an incident report was filed.
- The Eco center is running with no issues. We have signed contracts with all parties for next year.
- Recycling has remained steady all year.
- Recycling in the CNP continues to have issues, it is taking 3 times longer to sort the bins. I will be doing a cost analysis of the difference in cost, there will likely have to be a cost added for sorting.

-In the new year we will be revamping 2 crews to balance experience with learning, this will make us more efficient.

Dave Slingerland

Moved the Manager's report be adopted as presented.

Carried. 12.13.23-2243
