MANAGER'S REPORT

- MSW is steady. We are still seeing very good results from the new packer on compaction. We are also seeing better results from narrowing the cells to combat the loose paper and plastics.
- The Industrial cell continues to be slow.
- Contractor is making real head way this month, the cell is taking shape and we seem to be on target for mid August.
- The office seems to be running well, we are just about finished training for the new scale position.
- Recycling is staying very busy, the recycle attendance seem to be handling it well.
- No Issues this month at the Eco Center in Pincher, in fact we set another record of 315 people went through in 1 day.
- Recycling in the CNP is very hard to manage right now with construction, it is Putting us behind everywhere else. We have had to send 2 trucks out which is a bigger expense and takes away an employee from the Landfill.

Carried. 07.19.23-2196
