MANAGER'S REPORT

- MSW has stayed busy, it's nice to see this time of year.
- Western tank will be coming in Feb to fix the tear in the liner, after that we can lay the tire shred.
- Q&M is hauling steady, using 7 trucks on 2-3 rounds depending on road conditions.
- The new Scale and Scale house had a few little glitches, they were dealt with quickly and everything is working well.
- I drove to Secures head office in Sask. The trip was both educational and successful.
- I have started the procedure of the annual report for AEP, this report takes alot of time and effort to organize it for submission.
- I have also been working on gathering all the information needed for the engineering group to submit our operating approval as it expires this year. This needs to be submitted to AEP 6 months in advance.
- Recycling at the Eco Center continues to run issue free.

- Crowsnest Pass was busy over the holidays, but with the added extra bin we were able to stay on top of things.
- The new Radios are great, we can communicate with our employees even when they are offsite, which is a huge asset to us with the trucking part of our business.

Katerina Bunyan
