MANAGER'S REPORT

- MSW remains busy. He big customers remain steady. The new cell design has been submitted, AEP has some questions that we are still finding the answers to before we can get an approval.
- Industrial cell is busy, we have 15-20 loads a day. Every chance we get we haul clay onto the sections of the old cell so we can close it off by the end of the year and claim it as finished to AEP.
- The new scale continues to move forward, it is now wired and roughed for plumbing, next is flooring. We are now just waiting for the hook ups for the new pump.
- Recycling in the Crowsnest remains the same, busy but still having issues with debris in the bins.
- Recycling from the Eco remains flawless, no issues and has become very busy, as many as 300 people a day, we have received several more compliments on how it is run and how clean it is.
