Moved the minutes from Sept 24, 2025, be adopted as circulated. Carried. 10.15.25-2450

**MANAGER'S REPORT**

- MSW is starting to slow down slightly, with the exception of the big contractors.
- The new MSW cell is about a week away from having clay liner completed and then the lining crew will come in, and the construction part of the cell will be completed. Then we will haul the shredded rubber into the bottom and sides as well as the MSW Material.
- Industrial cell is still slow, a few more loads came in but not much. We need to adjust our rates where the MSW can support the Landfill.
- The new scale house is complete. We started moving in some furniture. We are just putting some final touches on trim and curtains inside.
- The Programing part of the scale has hit a hiccup due to the internet service; the program team is working on a fix.
- No change in recycling in the CNP.
- Recycling from the Eco center also no changes as it runs perfectly.
- The Transition to Circular Material is getting better now that we have sat with them and got a walk through on how to fill out the proper paperwork.
