Carried. 09.24.25-2444

MANAGER'S REPORT

- MSW remains busy, we will be finishing off the 2nd last lift on the existing cell.
- The new MSW cell has been a bit of a battle with the weather. We have had to go out and rent a water truck as we cannot keep up with watering the clay lifts down before they dry out. They are laying the last of the clay liner in the bottom of the cell this week and we will make the deadline for the lining crew to be on site the end of the month.
- Industrial cell is still slow, a few more loads came in.
- The new pump and water line and pump are now installed and completely supplying the old shop and new scale house.
- We suffered a set back in the scale house, everything electronic ways is hooked up and waiting for the new program and scale software.
- No change in recycling in the CNP.
- Recycling from the Eco center also no changes as it runs perfectly.
- Training continues with newer staff and we have begun to look at replacements for 2 guys as they will be retiring in the next year or 2.

Doreen Glavin

Moved the Manager's report be adopted as presented.

Carried. 09.24.25-2445
